

Mulberry Miniatures 2020-2021 Reference Book

featuring "Harmony Plant Collections" by color

Miniature Hardy Shade Perennials

These hardy perennial miniature shrubs, vines, and groundcovers prefer the outdoors 365 days a year and require a cold winter resting period of least 45° for several weeks to initiate next year's flowers. If you can grow hosta in your area - you will be able to grow these just fine.

For trees, consider ordering hardy miniature conifers and trees from *Stanley & Sons Nursery* (for your zone) to provide your customers with a complete landscape. Use bonsai and cactus soil when adding these trees.

Most enjoy morning sun with afternoon shade, though they'll tolerate a touch of afternoon sun, if filtered. Just a few plants thrive in full shade, mostly the ferns.

As a general rule:
the more sun they get, the more water they want.

Many are deer resistant. Growing them in pots near the house also discourages nibbling. Mini landscaping can be done in most any container from partially rotted logs and stumps, to wooden boxes, hypertufa and ceramic containers, as long as they are frostproof.

Miniature Hardy Shade Perennials

Ajuga, Multicolor

Botanical: Ajuga reptans 'Multicolor'

Size: Shrub 2" tall x 5" wide

Flower Time: spring

Zone: 4 - 8

Cream, pink, plum and light green linear leaves mound, fall through spring. Summer's heat may green up the foliage, but indigo blue flower spikes remain. Does best in cool shade.

Carpet Tulips

Botanical: Centaureum scilloides

Size: Shrub 3" tall x 3" wide

Flower Time: spring - fall

Zone: 4 - 8

It is not a tulip. No bulbs to dig but a bit of deadheading keeps the pink blossoms coming from spring to fall. Grows in dry shade or full sun, though it is not an aggressive grower.

Coral Bells, Chiquita

Botanical: Heuchera parishii 'Chiquita'

Size: Shrub 3" tall x 3" wide

Flower Time: late spring - summer

Zone: 5 - 8

Tiny bell-shaped flowers, white petals with pink calyxes, decorate green, ground hugging foliage. Grow in bright shade to part sun. Tolerant of dry sun, once established.

Coral Bells, Pulchella

Botanical: Heuchera pulchella

Size: Shrub 4" tall x 4" wide

Flower Time: late spring - summer

Zone: 4 - 8

Known as "Rock Coral Bells," it is easy to grow. Late spring flowers of pink buds open white flowers over tidy green mounds that happen to be very winter hardy.

Daisy, World's Smallest

Botanical: Bellium bellidoides

Size: Shrub 2" tall x 5" wide

Flower Time: spring - fall

Zone: 4 - 8

We suggest you divide the rosettes of dark green, spoon-shaped leaves that cradle stalks of white daisies to repeat throughout gardens in ground or in table top containers.

Miniature Hardy Shade Perennials

Euonymus, Dwarf Variegated

Botanical: *Euonymus japonicus* 'Microphyllus Variegatus'

Size: Tree 18" tall x 8" wide

Flower Time: N/A

Zone: 6 - 10

Glossy, dark-green foliage features creamy white margins, some golden highlights and salt and drought tolerances. Here's a give-away for your first game piece: find the 1/2" "Monopoly" board game wheelbarrow in front of the shanty.

Fairy Fern, Brass Buttons

Botanical: *Leptinella squalida*

Size: Groundcover 2" tall x 16" wide

Flower Time: N/A

Zone: 5 - 11

Slightly felted, green, fern-like leaves creep just above the soil, to form a thick carpet of yellow, "brass button" blooms. This groundcover, lawn, and in between stone element appreciates a steady supply of moisture even in the shade.

Fairy Fern, Platt's Black

Botanical: *Leptinella* x 'Platt's Black'

Size: Groundcover 1" tall x 16" wide

Flower Time: spring - summer

Zone: 5 - 11

Inch long, finely textured leaves are green with black tips. Add sunshine and the mound turns jet black which is more dramatic when grown in white stones with its yellow button flowers.

Fern, Dwarf Lady's

Botanical: *Athyrium filix-femina* 'Minutissimum'

Size: Shrub 6" tall x 6" wide

Flower Time: N/A

Zone: 5 - 11

Tiny mounding rosettes of delicately cut, green foliage grow abundantly in full shade. Divide yearly to keep under a foot tall.

Fern, Himalayan Maidenhair

Botanical: *Adiantum venustum*

Size: Shrub 5" tall x 6" wide

Flower Time: N/A

Zone: 5 - 11

Native to the foothills of the Himalayas, it forms a slow-spreading groundcover with blue-green, teardrop-shaped leaflets on black stems. Fronds are semi-evergreen and work great in floral arrangements. Performs best in cooler areas.

Miniature Hardy Shade Perennials

Golden Money Carpet

Botanical: *Lysimachia japonica minutissima*

Size: Groundcover 1" tall x 5" wide

Flower Time: late spring - summer

Zone: 5 - 8

With some morning sun, your plant will have blooms that look like a carpet of golden coins. Most shade lovers like a bit of sunshine even if it makes them a tad more thirsty. Avoid hot afternoon sun, especially in the South.

Hosta, Mini Assorted

Botanical: Hosta species and cultivars

Size: Shrub 3" tall x 4" wide

Flower Time: summer

Zone: 4 - 8

Hard to choose which hosta is our favorite but very easy to grow, rewarding gardeners with all season beautiful rosettes of leaves and long pinkish/purple flower spikes starting in July. Varieties are very winter hardy and drought tolerant.

Irish Moss

Botanical: *Sagina subulata*

Size: Groundcover 1/2" tall x 5" wide

Flower Time: summer

Zone: 5 - 8

Its texture looks like a scratch-proof sponge, but the lush, green carpet is deceptively soft- the perfect pillow for dainty, white blooms. Doesn't like extreme drought, wet feet or hot sun. Monopoly hint: "Who let the dog out?"

Mondo Grass, Tiny Kyoto

Botanical: *Ophiopogon japonicum* 'Kyoto Dwarf'

Size: Shrub 1" tall x 3" wide

Flower Time: summer

Zone: 6 - 10

Mounds of curly, dark green, foliage grow well between stones or areas where grass won't grow. Morning dew creates magical crystals along its ribbon-like foliage. That's a battleship floating past the world's smallest mondo grass.

Mondo Grass, White Sparkler

Botanical: *Ophiopogon chingii* 'Sparkler'

Size: Shrub 3" tall x 4" wide

Flower Time: summer

Zone: 5 - 8

This delicate, fine leaved grass sends up pure white flower spikes throughout summer and is used as miniature "Pampas Grass" in faery and railroad gardens.

Miniature Hardy Shade Perennials

Star Carpet, Alpine White

Botanical: *Pratia puberula* 'Alba'
Size: Groundcover 1" tall x 6" wide
Flower Time: spring - fall
Zone: 5b - 11

Count on these white star flowers from summer through fall. Encourage more blooming and compact growth with afternoon sun, a rare trait in hardy shade plants. Water frequently and never allow it to dry out in the sun.

Star Carpet, Baby Blue

Botanical: *Pratia pendunculata*
Size: Groundcover 1" tall x 8" wide
Flower Time: spring - summer
Zone: 5 - 8

Locate this groundcover anywhere BUT where it might get afternoon sun and you'll have a carpet of blue from May to September, as it tolerates morning sun only.

Sweet Flag, Mini Golden

Botanical: *Acorus gramineus* 'Oborozuki'
Size: Shrub 3" tall x 3" wide
Flower Time: N/A
Zone: 5 - 11

These gilded blades are like lightbulbs in the shade, including terrariums, but can tolerate sunny spots (with watering). Divide sweet flags to repeat throughout the garden.

[Sweet flags are great for tropical shade section as well.](#)

* Sweet Flag, Mini White Striped*

Botanical: *Acorus gramineus* 'Himemasumene'
Size: Shrub 3" tall x 4" wide
Flower Time: N/A
Zone: 5 - 11

This elegant, white striped sweet flag is right at home, in or along water as well as the shade. With little maintenance, these unique, fan-shaped plants last a long time.

[Sweet flags are great for tropical shade section as well.](#)

Woodruff, Tiny Sweet

Botanical: *Asperula suavis*
Size: Groundcover 2" tall x 8" wide
Flower Time: spring - fall
Zone: 5 - 8

This Black Sea native rambles over rocks and spills beyond containers with endless white flowers. Still, it is a well behaved groundcover with endless dividing possibilities.

Miniature Hardy Sun Perennials

These sun loving perennials must have at least 4 to 6 hours of hot afternoon sun though they'd like to bask in bright light all day, at least up North. They prefer the outdoors, 365 days a year and require a cold winter resting period of least 45° for several weeks to initiate next year's flowers. This group will thrive almost anywhere in America, except in the humid, southeastern states and Hawaii. Arizona to Texas gardeners should grow them in morning sun sites.

For miniature trees, consider ordering hardy miniature conifers and trees from *Stanley & Sons Nursery* (for your particular zone) to provide customers with all the plants for a finished garden.

When growing in containers, it is imperative to use one part of an organic potting soil to one part of any combination of the following ingredients: extra sharp sand, small gravel (granite, haydite, or "Turface") and/or aged bark, to increase the drainage of water. If grown in-ground, add the same materials to build up a mounding situation, as these plants will not tolerate wet, heavy soil. Most of these perennials thrive in alpine gravel conditions with a preference towards rocky, well drained soil.

Hardy sun perennials are very popular as bonsai accent plants and garden railroad greenery. They also thrive in hypertufa troughs and rock gardens.

Each entry includes a description next to "size:" be it tree, shrub, groundcover, lawn, vine or grass. Mix and match these forms within this section only and you'll create culturally compatible, successful gardens.

Miniature Hardy Sun Perennials

NEW! Alchemilla, Mini Lady's Mantle

Botanical: *Alchemilla faeroensis pumila*

Size: Shrub 1" tall x 4" wide

Flower Time: late spring - summer

Zone: 4 - 8

Medieval alchemist believed this plant to be magical for the dew that collected in the middle of each leaf resembled crystals. The silvery, jagged edge adds to its mystique. Will tolerate a little shade.

Alpine Daisy

Botanical: *Erigeron scopalinus*

Size: Shrub 2" tall x 4" wide

Flower Time: spring - summer

Zone: 4 - 8

Small white daisies with yellow centers dot the inch tall, ground-hugging mat of pinnately divided leaves. Perfect for a trough, filling in crevices in stone walks or chinking the seams in a rock wall.

Blue-Eyed Grass, Lucerne

Botanical: *Sisyrinchium angustifolium 'Lucerne'*

Size: Shrub 6" tall x 4" wide

Flower Time: summer

Zone: 4 - 8

Though not related, this looks like a dwarf purple iris however, it blooms all summer. It is best to divide the clumps of blades yearly.

Betony, Dwarf

Botanical: *Stachys officinalis 'Nana'*

Size: Shrub 6" tall x 4" wide

Flower Time: late spring - mid summer

Zone: 5 - 8

Drought tolerant perennials add delicate, plum-pink flowers that are well suited for faery and railroad gardens. Dig and divide to spread and keep small. By the way, rabbits do not consider this a desirable edible.

Candytuft, Tiny White

Botanical: *Iberis candolleana*

Size: Shrub 3" tall x 5" wide

Flower Time: spring -summer

Zone: 4 - 8

Pure white to the palest of pink flowers appear in spring and re-bloom. Glossy green foliage adds to the resemblance of a tiny, extra long blooming hydrangea bush in the landscape.

Miniature Hardy Sun Perennials

Cypress, Boulevard

Botanical: *Chamaecyparis pisifera* 'Boulevard'

Size: Tree 2-6 inches per year

Flower Time: N/A

Zone: 4 - 9

'Boulevard' is a dense, pyramidal evergreen shrub with soft, silvery blue-gray foliage. It is slow growing, typically reaching 5 to 6 feet tall in 10 years, or shorter with pruning.

* NEW! Cypress, Elwood's Pillar*

Botanical: *Chamaecyparis lawsoniana* 'Elwood's Pillar'

Size: Tree 1-2 inches per year

Flower Time: N/A

Zone: 5 - 9

This true miniature conifer will only grow to 1 foot in 10 years. Stays tight and compact, without unsightly brown needles. Easy to grow in well drained soil and lots of sun.

Dianthus, Blue Stone

Botanical: *Dianthus simulans*

Size: Shrub 2" tall x 4" wide

Flower Time: spring

Zone: 4 - 8

Their pink blooms may suffer from "stagefright" after a particularly harsh winter but it is the cool blue foliage that is its trademark. Looks like a juniper from a human's perspective.

Dianthus, Tiny Rubies

Botanical: *Dianthus gratianopolitanus* 'Tiny Rubies'

Size: Shrub 4" tall x 8" wide

Flower Time: spring

Zone: 4 - 8

Bright ruby-pink, mini, single carnation flowers smother the bluish, grassy foliage in the spring. Will eventually form a mat, two feet in diameter.

Euonymus, Mini Trailing

Botanical: *Euonymus fortunei* 'Kewensis'

Size: Vine 8" wide

Flower Time: N/A

Zone: 5 - 11

Over a trellis, up a topiary form or along a fence, this easily trained, green vine turns scarlet in the fall and sometimes does not go dormant which is why it's known as a "winter creeper."

Miniature Hardy Sun Perennials

Faery Foxglove

Botanical: Erinus alpinus
Size: Shrub 2" tall x 4" wide
Flower Time: spring
Zone: 4 - 8

Though it is the quintessential faery plant, it is not a true foxglove, just mimics one on a micro scale. After pale, pink-purple flowers, a fluffy mound remains. Politely re-seeds.

Geranium, Tiny Pink

Botanical: Geranium dalmaticum
Size: Shrub 2" tall x 3" wide
Flower Time: spring - summer
Zone: 4 - 8

Might well be the world's smallest hardy geranium boasting a carpet of pink flowers and drought tolerance. Like many geraniums, it puts on a fall foliage display of orange to red. At 1" long, the car game piece is the largest in "Monopoly."

* Hen & Chick, Mini Cobweb*

Botanical: Sempervirens archnoideum laggeri
Size: Shrub 1" tall x 4" wide
Flower Time: summer
Zone: 4 - 8

Cool white, mini hen & chick rosettes are draped with fuzzy cobwebs, about the size of a 1/2" top hat "Monopoly" game piece. Drought resistant and strawberry jar ready.

Oregano, Micro-Silver

Botanical: Oregano microphyllum
Size: Shrub 6" tall x 4" wide
Flower Time: summer
Zone: 5b - 9

Though the silver foliage and purple flowers are edible, its compact size is better suited in a rock, faery or train garden rather the dinner plate.

Santolina, Little Ness

Botanical: Santolina 'Small Ness'
Size: Shrub 4" tall x 4" wide
Flower Time: summer
Zone: 6 - 9

Dwarf, aromatic evergreen with narrow, finely divided, grey-green leaves and button-like, bright yellow flowers can be pruned back to any height you desire. The inch tall cannon "Monopoly" piece is pointed the the cottage's red door.

Miniature Hardy Sun Perennials

Santolina, Pretty Polly

Botanical: Santolina 'Pretty Polly'

Size: Shrub 6" tall x 6" wide

Flower Time: summer

Zone: 5 - 9

Similar silver foliage and yellow buttons as its larger, moth repelling cousin, but this dwarf is reputed to deter mice from the garden.

Sedum, Coral Carpet

Botanical: Sedum alba 'Coral Carpet'

Size: Ground cover 1" tall x 6" wide

Flower Time: spring

Zone: 4 - 8

Dry, hot, sunny conditions make these and other green sedums blush red by autumn and a rich red carpet by winter. Flowers open up pale pink.

Sedum, Corsican

Botanical: Sedum requinii

Size: Groundcover 1/2" tall x 5" wide

Flower Time: N/A

Zone: 5 - 10

No shade required for this sedum. Though it likes more water than most, the sun encourages a terrifically low growing, green groundcover for rock, faery or bonsai garden.

Sedum, Frosted Blue

Botanical: Sedum hispanicum minus 'Pinkie'

Size: Shrub 2" tall x 4" wide

Flower Time: spring

Zone: 5 - 8

This sedum exhibits blue foliage with shades of pink around the edges and pink, nearly white flowers early spring. Sedums are suited for strawberry jars so you know they will grow anywhere.

Sedum, Love's Triangle

Botanical: Sedum anglicum 'Loves Triangle'

Size: Groundcover 2" tall x 5" wide

Flower Time: spring

Zone: 5 - 8

Pinkish-white flowers entertain soft, powder blue, pea-sized foliage each spring. To ensure next year's crop, break off a small section and overwinter in a sunny window.

Miniature Hardy Sun Perennials

Thrift, Little Penny

Botanical: Armeria x 'Little Penny'

Size: Shrub 2" tall x 3" wide

Flower Time: summer

Zone: 5 - 8

Patience is needed. Certainly, it is an exceptional shrub in the miniature landscape, but it'll take several years to grow into a 4 inch wide mound with pink flowers perched on a bed of green mounds.

Thrift, Red Pixie

Botanical: Armeria caespitosa 'Bevan's'

Size: Shrub 3" tall x 5" wide

Flower Time: spring - summer

Zone: 4 - 8

Though red is in its name, the color leans more dark pink but it exhibits the same perky globes that announce spring and stick around into summer. A red lantern is shown for contrast to the "Red" Pixie along with a "Monopoly" thimble.

Thyme, Elfin

Botanical: Thymus praeceox ssp. articus

Size: Groundcover 1" tall x 5" wide

Flower Time: spring

Zone: 4 - 10

Pink flowers adorn this truly diminutive groundcover in summer. We use it as a moss substitute in bonsais, hypertufa containers or rock garden. In five years, it may achieve 18 to 24 inches wide and a dizzying height of one inch.

Thyme, Wine & Roses

Botanical: Thymus praeceox 'Caborn Wine & Roses'

Size: Groundcover 2" tall x 6" wide

Flower Time: spring - summer

Zone: 4 - 10

The name refers to the shades of the abundant blooms that color and perfume this prostrate herb, not the flavor, though it is edible.

Trumpet Flower, Mini

Botanical: Putatoria calibrica

Size: Shrub 6" tall x 12" wide

Flower Time: spring - summer

Zone: 5 - 8

It can endure the intense heat of its native Mediterranean climate but NOT the extreme cold of a Northern winter. Tight clusters of loud, pink trumpets dominate over this low, spreading green shrub, spring through summer.

Miniature Hardy Sun Perennials

Valerian, Alpine Pink

Botanical: Valerian supina
Size: Shrub 2" tall x 4" wide
Flower Time: spring
Zone: 5 - 8

You won't find medicinal roots in this shrunken version, but you will notice the same sweet smell from its white flowers, like its larger cousin.

Veronica, Sunshine

Botanical: Veronica repens 'Sunshine'
Size: Groundcover 1" tall x 6" wide
Flower Time: spring
Zone: 5 - 8

Sunshine influences foliar wattage. Lime green may be all you get with morning sun, but a full day of sun results in 200 watts of gold which admittedly outshines the white, spring flowers.

Veronica, Tiny Blue

Botanical: Veronica oltensis
Size: Groundcover 1/2" tall x 6" wide
Flower Time: spring
Zone: 5 - 8

From rock gardens to in between patio flagstones, it handles foot traffic. Called "Thyme Leaf Speedwell" for its tiny dark green, thyme-like, evergreen foliage and hundreds of small, azure blue flowers that erupt mid spring.

Woodruff, Tiny Sicilian

Botanical: Asperula gussonii
Size: Shrub 2" tall x 4" wide
Flower Time: spring-summer
Zone: 5 - 8

Sweet Woodruff has a reputation of taking over but not this, its smallest relative. As long as you do not overwater, thick mounds will thrive and give rise to two-toned, pink blooms barely above the soft cushions.

Yarrow, Tiny Golden

Botanical: Achillea sp. x Utah
Size: Shrub 2" tall x 5" wide
Flower Time: spring - summer
Zone: 5 - 8

Buttercup yellow blooms balance above the traditional ferny yarrow foliage reaching no more than a couple of inches tall. If it is not, it certainly must be in competition for "World's Smallest" Yarrow.

Miniature Tropical Shade Perennials

Harmony Plant™
Collection

Tropical shade perennials will live year after year in the South, according to their zone hardiness. Northern gardeners can keep them growing by planting these tropicals in containers, outside, between frost times. Transfer pots indoors, next to a bright window, for the winter. For more growth, plant in the ground during the summer months, then pot them up for indoor winter enjoyment.

This group, just like the hardy shade perennials, prefer only morning sun, with a few, like ficus, tolerating a full day of northern exposure sun only. Avoid afternoon sun!

They also make the best terrarium plants on the market. These plants like it a little on the wet side, but still allow the soil to dry out in between watering. Organic fertilizers are best, as they keep the plants toned, rather than becoming larger than they should with chemical fertilizers.

These plants are fantastic not only for year round faery gardens, but also, terrariums, indoor bonsai or bonsai accent plants and garden railroad (G-Scale) scenery. Lastly, they just look darn cute on a windowsill.

Each entry includes a description be it tree, shrub, groundcover, lawn, vine or grass. Mix and match these forms within this section and you'll create culturally compatible, successful gardens.

*Featuring:
"Confetti Fern,
Ficus, Tiny Oak-Leaf
Arrowhead, Tiny White"*

Miniature Tropical Shade Perennials

African Violet, Humpty Doo

Botanical: Saintpaulia x 'Rob's Humpty Doo'

Size: Shrub 3" tall x 5" wide

Flower Time: spring

Zone: 4 - 8

Like any violet, use room temperature water to avoid permanent splotching on the leaves. The sweetest, non-stop, blue & white flowers hold court over rosettes, which enjoy frequent dividing.

Arrowhead Plant, Pink Faery

Botanical: Syngonium hybrida

Size: Shrub 3" tall x 5" wide

Flower Time: N/A

Zone: 9 - 11

For a tree in a small terrarium garden or a shrub in a garden railroad, it's hard to find a more colorful, rugged specimen courtesy of pale lemon, pink veined, arrowhead shaped leaves on green stems.

Arrowhead, Tiny White

Botanical: Syngonium x 'Pixie White'

Size: Shrub 1" tall x 3" wide

Flower Time: N/A

Zone: 9 - 11

Think of it as a mini green with white veined Caladium! When clumps get too thick and bushy, dig them up, separate and replant. Can perform for even the brownest of thumbs! ("Monopoly") hats off to you!

Baby's Tears, Golden

Botanical: Soleirolia soleirolia 'Aurea'

Size: Groundcover 1" tall x 5" wide

Flower Time: N/A

Zone: 7 - 11

This is a bright gold version of the popular houseplant. Micro leaves unite to form a glowing groundcover for railroad gardeners and a lawn in mini landscapes. By summer's end, dig these plants or they will die in most US gardens!

Begonia, Bower's Black

Botanical: Begonia bowerae 'Nigramarga'

Size: Shrub 3" tall x 5" wide

Flower Time: spring - fall

Zone: 9 - 11

Abundant pale pink flowers, dotted with pin pricks of dark pink, hover over brown blotched 4 inch foliage. Whether for a terrarium, windowsill, or summer shade garden, people snatch it up as soon as it is displayed.

Miniature Tropical Shade Perennials

Begonia, Mini Maple Leaf

Botanical: Begonia partita

Size: Tree 9" tall x 9" wide

Flower Time: spring - fall

Zone: 9 - 11

Delicate, clam-shell shaped petals, pinkish-red, open white over fleshy, thick, soon to be woody stems creating a quick and easy bonsai.

Begonia, Rhinestone

Botanical: Begonia 'Rhinestone Jean'

Size: Shrub 2" tall x 4" wide

Flower Time: spring - fall

Zone: 9 - 11

Beautiful mottled, maroon red and yellow leaves with heavy "eyelash" edges make for a delightful shrub in any situation. White flowers never stop coming, when it is happy.

Begonia, Tiny Fuchsia

Botanical: Begonia foliosa var. putzeysiana

Size: Shrub 6" tall x 6" wide

Flower Time: spring - fall

Zone: 9 - 11

This begonia looks like a fuchsia with soft pink, warm season blooms. As long as the soil around begonias is allowed to dry out, they are the perfect specimens for terrariums and small dish gardens.

Calico Plant, Gold Thread

Botanical: Alternanthera ficoidea 'Aurea Nana'

Size: Shrub 4" tall x 4" wide

Flower Time: N/A

Zone: 9 - 11

There's nothing formal about this plant with a splash of gold here and there and undisciplined growth waiting to be trained to keep short and tidy. Use tiny scissors to shape and prune.

Calico Plant, Red Thread

Botanical: Alternanthera ficoidea 'Rosea Nana'

Size: Shrub 6" tall x 6" wide

Flower Time: N/A

Zone: 9 - 11

Crazy colors of magenta, cream and green and wild growth set this shrub apart. Fast growing so keep trimming the tips for a compact habit though it still is perfect for a jungle scene.

Miniature Tropical Shade Perennials

Each plant comes with a color coded label indicative of its “Harmony Plant Collection.”

If a customer wants to buy plants for a terrarium, for example, each plant’s label should be topped with a “Tropical Shade” title surrounded in green like this label. If there is plant with a red “Hardy Sun” label, that plant will likely perish in the terrarium.

Confetti Fern

Botanical: Pilea microphlla ‘Confetti’
Size: Tree 9” tall x 9” wide
Flower Time: N/A
Zone: 9 - 11

Though it begins as a carpet green frosted in cream, it will grow into a small tree if you snip off the lower leaves (that shows off the trunk) and pinch tips to keep its shape.

Faery Fern, Tiny Tim

Botanical: Leptinella gruveri
Size: Groundcover 1/2” tall x 5” wide
Flower Time: spring - summer
Zone: 7 - 11

Each bright green leaf has a frilly edge creating a thick and lush carpet for the base of a bonsai, a lawn for a child’s mini landscape adorned with a set of dinosaurs or an underwater scene in a terrarium.

Fern, Smallest Boston

Botanical: Nephrolepis ‘Mini Russells’
Size: Shrub 2” tall x 3” wide
Flower Time: N/A
Zone: 9 - 11

Botanically, it is a true “Boston Fern” however, the fronds normally grow no more than 2 inches long, providing a fresh, green shrub element.

Fiber Optic Grass, Dwarf

Botanical: Isolepis radicans
Size: Groundcover, 2” tall x 12” wide and growing
Flower Time: always
Zone: 8 - 11

You’d swear there should be an electric cord attached. Each blade of grass has a tiny flower head. Rarely reaching two inches, it is not considered invasive though it spreads quickly for easy dividing. Also known as “Bonsai Grass.”

Miniature Tropical Shade Perennials

Pictured trees
are 2 years old

* Ficus, Mini Lucie *

Botanical: Ficus benjamina 'Lucie'

Size: Tree 12" tall x 6" wide

Flower Time: N/A

Zone: 9 - 11

Ficus trees are the work horse plants of the "Tropical Shade Perennials." With long elegant leaves, this one is easy to maintain at any height and provides that rare tree element in a landscape.

* Ficus, Tiny Limey *

Botanical: Ficus microcarpa 'Tiny Limey'

Size: Tree 9" tall x 9" wide

Flower Time: N/A

Zone: 9 - 11

It's not a lack of fertilizer. It is in its nature for the new foliage to begin lime green and mature to dark green. The two tones add depth and the makings of an award winning bonsai.

* Ficus, Tiny Oak-Leaf *

Botanical: Ficus pumila 'Quercifolia Minima'

Size: Groundcover 1/2" tall x 4" wide

Flower Time: N/A

Zone: 9 - 11

Looks more like a vine of miniature grape leaves than the classic ficus. It has no intention of turning into a tree, rather it creeps over rocks, pots and anything else you put in its way, v e r y s l o w l y.

* Ficus, Variegated Trailing *

Botanical: Ficus pumila 'Variegatus'

Size: Groundcover 2" tall x 12" wide

Flower Time: N/A

Zone: 9 - 11

In a terrarium, this creeping fig may take over quickly, but positioned as a variegated (green, crepe paper leaves lined cream) vine in a garden railroad, it might be just the thing.

* Ficus, Willow-Leaf *

Botanical: Ficus subulata

Size: Tree 16" tall x 16" wide

Flower Time: N/A

Zone: 9 - 11

This tree is a little taller than others. Like other ficus trees, it tolerates the shade, but, would much rather warm up in a spot bathed by morning sun, where it takes on a bronzed tan. However, keep it in the shade in the South

Miniature Tropical Shade Perennials

Fuchsia, David

Botanical: Fuchsia x 'David'
Size: Tree 14" tall x 12" wide
Flower Time: spring - fall
Zone: 8 - 11

Bring out the flowers by planting it where it'll receive morning sun. Nibbling on these red with purple dangling flowers is acceptable as is creating a tree by snipping off the limbs on the lower trunk and trimming above.

Fuchsia, Lottie Hobby

Botanical: Fuchsia x 'Lottie Hobby'
Size: Tree 8" tall x 8" wide
Flower Time: spring - fall
Zone: 7 - 11

Sweet, tasty, 1/2" flowers of dazzling pink and rose red emerge between 1/4 inch leaves. Flowers out of doors and inside over trellises or on the ground.

Fuchsia, Var. Lottie Hobby

Botanical: Fuchsia x 'Lottie Hobby Variegated'
Size: Tree 6" tall x 6" wide
Flower Time: spring - fall
Zone: 7 - 11

These delicate pink with white centered flowers are sweet in any salad though the cream and green foliage is more ornamental. Especially in the shade, good air circulation, well drained soil and steady watering are needed.

Ivy, Abundance

Botanical: Hedera helix 'Abundance'
Size: Vine 6" wide
Flower Time: N/A
Zone: 5b - 11

This ivy is determined to stay small no matter how much you fertilize. Duck foot shaped, dark green foliage grows, evenly spaced, on serpentine stems.

Ivy are great for hardy shade section as well.

Ivy, Feen Finger

Botanical: Hedera helix 'Feen Finger'
Size: Vine 12" wide
Flower Time: N/A
Zone: 5b - 11

"Feen Finger" (in German translates to "Faery Finger") is wonderfully compact with tiny, long thin "lobes" on each leaf, which somewhat look like tiny hands!

Ivy are great for hardy shade section as well.

Miniature Tropical Shade Perennials

Ivy, Mini Easter

Botanical: Hedera helix 'Mini Easter'

Size: Vine 8"wide

Flower Time: N/A

Zone: 5b - 11

Choose this bright cream, variegated ivy to create a proper English garden. Imagine a hedge of miniature boxwood, arborvitae, this ivy and an English Cottage.

Ivy are great for hardy shade section as well.

Ivy, Peter Pan

Botanical: Hedera helix 'Peter Pan'

Size: Vine 12"wide

Flower Time: N/A

Zone: 5b - 11

Excellent choice for grapevines in a railroad garden scene as this ivy looks most like grape leaves. Make a tiny fence with bamboo stakes and florist wire to attach the ivy.

Ivy are great for hardy shade section as well.

Peperomia, Pixie

Botanical: Peperomia meridana 'Pixie'

Size: Shrub 4" tall x 4" wide

Flower Time: summer

Zone: 9 - 11

Under terrariums plants, you'll find this houseplant, a.k.a. "Crazy Quilt Peperomia." Reddish stems balance whorls of glossy, sunken-veined, green foliage that is stacked thickly like shingles making a tight, compact shrub.

Peperomia, String-of-Hearts/Turtles

Botanical: Peperomia prostrata

Size: Groundcover 1/2" tall x 4"wide

Flower Time: spring - fall

Zone: 9 - 11

Light green etching over the 1/4 inch, medium green, oval leaves roughly resembles a peace sign or a turtle's shell. Its creeping, compact foliage crawls over a terrarium floor, given enough light and humidity.

Pilea, Trailing Blue Angel

Botanical: Pilea glaucophylla 'Greyzy'

Size: Groundcover 1" tall x 8" wide

Flower Time: spring - fall

Zone: 9 - 11

Blue with silver streaked foliage pair with rust red flowers as it trails down the sides of a tropical basket. This fast perennial groundcover is easily trimmed and controlled.

Miniature Tropical Shade Perennials

* Shamrock, Plum Crazy *

Botanical: Oxalis vulcanicola 'Plum Crazy'

Size: Shrub 5" tall x 5" wide

Flower Time: spring - fall

Zone: 8 - 11

Plum and dark green foliage offset butter yellow flowers anytime but the heart of summer. Prune tips if it gets too large and divide or root stems in water to repeat plant. Remove any "all-purple" stems that have reverted, as they grow too large.

*NEW! Spikemoss, Frosty *

Botanical: Selaginella brownii 'Aureum'

Size: Groundcover 3" tall x 4" wide

Flower Time: N/A

Zone: 8 - 11

This spikemoss needs a little more sun than others to bring out the frosted colors. Great color at Christmas time, indoors, and easy to maintain as tropical houseplant or terrarium focal point.

*Spikemoss, Golden *

Botanical: Selaginella brownii 'Aureum'

Size: Groundcover 2" tall x 6" wide

Flower Time: N/A

Zone: 6 - 11

In all day shade, this spongy groundcover remains chartreuse but add a bit of morning sun (only) and a golden, soft carpet emerges. Can grow fast, but is easily pruned.

*Snowbush, Dwarf *

Botanical: Breynia nivosa 'Roseopicta Nana'

Size: Tree 12" tall x 6" wide

Flower Time: N/A

Zone: 9 - 11

Tolerant of low light and dry conditions, this is an ideal houseplant. Though the variegated foliage looks like it's been snowed on, it is a tropical so, indoors is right where it needs to be during cold, snowy winters or even chilly weather. (Yes, that's a "Monopoly" battleship to show relative size.)

"Flower Fairies" are not included with plants. Roughly five inches tall, they are pictured for scale reference and inspiration.

Miniature Tropical Sun Perennials

Harmony Plant™
Collection

Our story began in 1998 with a tropical sun plant. Our son Ben was playing in our greenhouse, (Mulberry Creek HerbFarm). He pointed to a plant, asking for the name. My “Elfin Herb” reply received a toddler’s response- “Why?” I stammered, “Because, uhhh ... faeries like to use the flowers as pretty little hats. Then elves snatch the flowers right off the faeries’ heads to lure the faeries to chase them.” A month later, Ben noticed another one, “Oh look Daddy, you have a new Elfin Herb!” He not only noticed the new color, but also remembered the name of the plant and the story. The transfer of knowledge and love of gardening had begun.

Tropical perennials will live year after year in the South, according to their zone hardiness, though north of that, they’re cared for as annuals.

This group of plants, grown in the northern states, prefer as much sun as you can throw at them. From Arizona to Florida, avoid hot afternoon sun. In containers, use an organic brand potting soil (without the chemical fertilizer pellets) and allow the soil to dry out in between watering, just not bone dry. Wilting is not good. Scratch in 1 to 2 tablespoons of an organic granular fertilizer or liquid fertilizer, monthly, to keep plants healthy but not crazy overgrown.

From this group of plants, come the popular tropical bonsai specimens, easily groomed and enjoyed year round. In addition, they are great for garden railroads (G-Scale) as appropriately scaled trees, shrubs and groundcovers. Northern gardeners bring them indoors for the winter. As plants grow, remove lower branches to show-off the trunk along with the growing tips for a strong tree form.

Combine trees, shrubs, vines and groundcover in this section and you will create culturally compatible, successful gardens.

Miniature Tropical Sun Perennials

Chile, Bonsai Fire Tiny

Botanical: Capsicum x 'Bonsai Fire Tiny'

Size: Shrub 3" tall x 3" wide

Flower Time: spring - fall

Zone: 9 - 11

"World's Smallest Chile Pepper," and easiest bonsai tree in one season bears edible, but fierce yellow, burnt orange and red fruits and equally tiny leaves. Can you find the hanging, 1/2 inch "Monopoly" iron?

Coleus, Mini Autumn-Leaf

Botanical: Coleus x 'Tiny Red Toes'

Size: Tree 9" tall x 9" wide

Flower Time: N/A

Zone: 9 - 11

Enjoy this in your summer landscape, witness its autumnal crescendo of lemon, lime and red centered foliage, and bring it in for a winter garden for most of the US. These thick trees are drought and deer resistant.

Coleus, Mini Red-Leaf

Botanical: Coleus X 'Cantigny Royale'

Size: Tree 9" tall x 9" wide

Flower Time: N/A

Zone: 9 - 11

Full sun or shade, this "Red Maple" tree mimic turns dark red and into a 12 inch tree in one season, provided it has an extra drink of water, now and then.

These Coleus
are 2 years old

NEW! Coprosma, Beatson's Gold

Botanical: Coprosma 'Beatson's Gold'

Size: Tree 9" tall x 9" wide

Flower Time: N/A

Zone: 9 - 11

Full sun brings out the gold and blushes of orange in the center of this Australian/New Zealand native's green leaves. Naturally makes a mini tree, tropical bonsai, or dish garden star. Grow outside during summer, in full sun, for best color.

Cushion Bush

Botanical: Calocephalus brownii

Size: Shrub 6" tall x 6" wide

Flower Time: winter

Zone: 9 - 11

In warm winter climates, these shrubs flower (yellow) just fine on their own. Plenty of sunshine is required wherever it is grown to keep growth compact and silvery. Suitable for Halloween scenes.

Miniature Tropical Sun Perennials

Pictured tree
is 2 years old

Cypress, Lemon Scented

Botanical: Cupressus macrocarpa 'Goldcrest'

Size: Tree 14" tall x 8" wide

Flower Time: N/A

Zone: 7 - 11

Heavenly lemon scented, chartreuse, feathery foliage turns lemon yellow by summer. Prune tips annually to keep the compact size and pyramidal shape and place in potpourri bowls for a perky, citrus scent.

Pictured tree
is 2 years old

Elfin Herb, Assorted Colors

Botanical: Cuphea hyssopifolia

Size: Tree 12" tall x 12" wide

Flower Time: spring - fall

Zone: 8 - 11

Even a beginner can shape this year round flowering tree. Take a lower limb off here and another that crosses that other branch over there and in no time, you've just sculpted a tree. Elfin herbs come in baby pink, red, rose, purple, or white.

Erodium Faery Double Pink

Botanical: Erodium x variabile 'Flore Pleno'

Size: Shrub 3" tall x 4" wide

Flower Time: spring - winter

Zone: 7 - 11

From a human's prospective, these could replicate rose bushes around a cottage. Pink, red streaked, double flowers bloom year round over miniscule, rhubarb-like leaves. Dig and divide if these get too large.

Erodium, Faery White

Botanical: Erodium x variabile 'Alba'

Size: Shrub 4" tall x 5" wide

Flower Time: spring - winter

Zone: 7 - 11

Consider this an old-fashioned, white, single flowering rose shrub in a containerized miniature landscape, faery garden or garden railroad setting. Is a member of the geranium family.

Geranium, Bird Dancer

Botanical: Pelargonium 'Bird Dancer'

Size: Tree 8" wide x 8" wide

Flower Time: spring - fall

Zone: 9 - 11

This dwarf 'Stellar' pelargonium bears ruffly, apricot-peach flowers all year long and rust colored bands on tiny, bird foot shaped leaves as noted in its common name. Speaking of feet, it appears someone has left one 3/4" shoe in this scene.

Miniature Tropical Sun Perennials

Monkey Flower, Blue

Botanical: Lindernia grandiflora
Size: Groundcover 1" tall x 8" wide
Flower Time: spring - winter
Zone: 9 - 11

Go bananas over the dark blue and pure white flowers above glossy, green, heart-shaped leaves. Flowers remind me of a miniature "Mimulus." It loves the heat and water, but is slow to spread because it just wants to flower.

Myrtle, Mini Variegated

Botanical: Myrtus communis "Microphylla Variegata"
Size: Tree 12" tall x 8" wide
Flower Time: spring
Zone: 9 - 11

Prized by topiary and bonsai enthusiasts for its white flowers, white-striped variegated foliage, semi-weeping form, and black fruits, late summer. From the Mediterranean, it is used sparingly to flavor lamb and stews.

Pomegranate, Dwarf

Botanical: Punica granatum 'Nana'
Size: Tree 12" tall x 12" wide
Flower Time: spring - fall
Zone: 7 - 11

Provide sun and fertilizer and you'll have non-stop, orange blooms and eventually many pomegranate crops. May lose its leaves if temperature goes below 50°, but greens up again in spring. Great mini tree for bonsai for its twisting trunk.

Pictured tree is 2 years old

Privet, Mini Golden

Botanical: Lonicera nitida 'Baggescens Gold'
Size: Tree 8" tall x 4" wide
Flower Time: N/A
Zone: 7 - 11

Yellow foliage gets more golden relative to the amount of sun. However, if leaves turn white, dial back on the exposure to afternoon sun. Grows slowly and is easily shaped.

Rosemary Baby P.J.

Botanical: Rosmarinus officinalis 'Baby P.J.'
Size: Tree 3" tall x 8" wide
Flower Time: winter - early summer
Zone: 7 - 11

Classic tiny, glossy needles patiently await blue flowers by winter. Train as a tree, but it's best grown as a shrub that is allowed to grow over container edges. Prune tips and add to potatoes, focaccias, or shampoo (for shiny hair).

Pictured tree is 4 years old

Miniature Tropical Sun Perennials

Pictured tree
is 2 years old

Sct Geranium, Goldfinger

Botanical: Pelargonium crispum ‘Aureum Minor’

Size: Tree 8” tall x 4” wide

Flower Time: summer

Zone: 9 - 11

Few miniatures are finer to prune than edible herbs. This lemon scented, gold variegated tree is a pleasure to train since it’s easily shaped and the clippings can be added to bath oils, tea and marinades, to name a few.

Sct Geranium, Mini Maple-Leaf

Botanical: Pelargonium suffruticosa

Size: Tree 12” tall x 12” wide

Flower Time: summer

Zone: 9 - 11

Grab your pruning shears and transform this short variety with rich, pink with maroon accented flowers into a tree in one growing season. Known for finely cut foliage not flavor.

Sedum, Japanese Golden

Botanical: Sedum makinoi ‘Ogon’

Size: Groundcover 2” tall x 8” wide

Flower Time: spring

Zone: 7 - 11

Introducing our “Goldilocks Plant.” Too much sun, foliage turns white, too much shade and it’s green. Just right and it’s bright yellow and nearby sun plants are happy too. Tear apart to divide and repeat in landscapes.

Sedum, Tokyo Sun

Botanical: Sedum japonicum ‘Tokyo Sun’

Size: Groundcover 1” tall x 8” wide

Flower Time: summer

Zone: 9 - 11

If palmately divided leaves turn white, that means too much sun and a chartreuse green signals the need for a brighter location. Easy to divide and repeat in landscapes.

* NEW! Silver Needle Tree*

Botanical: Corokia cotoneaster

Size: Tree 8” tall x 6” wide

Flower Time: winter

Zone: 7 - 11

Wirey, zig-zag branched tree coddles yellow flowers each winter. Grow in hot sun for needle-like thin leaves. Makes a great tree for fairies to climb or the ultimate spooky tree for Halloween gardens.

Miniature Tropical Sun Perennials

* Snowrose, Cherry Blossom *

Botanical: *Serissa foetida* 'Cherry Blossom'

Size: Tree 12" tall x 12" wide

Flower Time: spring - fall

Zone: 8 - 11

Green and white foliage carry strong, single pink flowers. This is easily trained into a tree BUT does not like to dry out.

* Snowrose, Double White *

Botanical: *Serissa foetida* 'Flore Plena'

Size: Tree 12" tall x 12" wide

Flower Time: spring - fall

Zone: 8 - 11

This green tropical looks like a magnolia tree or a rose bush, depending on pruning, but blooms with double white flowers most of the year. It is an ideal bonsai specimen that grows best when temperatures are above 60°.

* Snowrose, Kyoto *

Botanical: *Serissa foetida* 'Kyoto'

Size: Tree 8" tall x 5" wide

Flower Time: spring

Zone: 8 - 11

Inspired by Kyoto's cherry blossoms, these mini trees exhibit the tiniest leaves of all our *Serissas* and a compact nature for bonsai. A two to three week chilling period of 50° encourages spring time, single white flowers.

* Snowrose, Pink Mountain *

Botanical: *Serissa foetida* 'Pink Mountain'

Size: Tree 12" tall x 12" wide

Flower Time: spring - fall

Zone: 8 - 11

Beauty lies in its striking, variegated foliage rather than its occasional pink flowers. Like other serissas, it prefers above 60°, and it doesn't like to dry out.

* Snowrose, Yatsabusa *

Botanical: *Serissa foetida* 'Yatsabusa'

Size: Tree 6" tall x 4" wide

Flower Time: spring

Zone: 8 - 11

Rarely is this tree pruned. Instead, witness a funky form that Dr Suess would enjoy, leaves stacked thickly. Long tubed, white flowers show up on occasion.

Pictured tree is 2 years old

Pictured tree is 3 years old

Pictured tree is 6 years old

Miniature Tropical Sun Perennials

Pictured tree is 4 years old

Yellowwood/Pepper Tree

Botanical: Zanthoxylem odorum

Size: Tree 12" tall x 12" wide

Flower Time: winter

Zone: 9 - 11

Delicious, peppery, pinnate leaves appear to have "leaf shine" sprayed on them. This unusual plant is prized by bonsai artists and chefs. Yes, it is edible!

Miniature Tropical Succulents

Mix and match these sun loving succulent trees, shrubs and ground cover for a desert, dinosaur or cowboy scene. Water frequently in the summer and only when the soil is dry in the winter. A well drained cacti/succulent mix with organic, granular fertilizer is recommended.

Aloe, Miniature

Botanical: Aloe descoingsii

Size: Shrub 2" tall x 3" wide

Flower Time: summer - fall

Zone: 8 - 11

Bristly, stiff, dark green, "Haworthia-like" leaves stage nectar-rick, tubular, orange flowers that attract birds, bees and wasps in May. Takes a mighty fine prospector to spot the "Monopoly" bag of gold, in the lower, right hand corner.

Cactus, White Thimbles

Botanical: Mammalaria gracilis fragilis

Size: Shrub 1" tall x 3" wide

Flower Time: summer

Zone: 8 - 11

Kids can create the wild west without the pain using these small, easy to care for cacti, that do not prick! Can you make out the one inch cowboy on his horse by the tip of the horn?

Drunkard's Dream, Spice Cactus

Botanical: Hatiora salicornioides

Size: Shrub 4" tall x 6" wide

Flower Time: winter

Zone: 9 - 11

Swollen, tube-like branches that resemble wine bottles, grow upright from woody stems. Tiny yellow blooms in the winter will develop into pink berries. Requires little soil and light to survive.

Miniature Tropical Sun Succulents

Ice Plant, Desert Bonsai

Botanical: *Trichodiadema bulbosum*

Size: Shrub 2" tall x 3" wide

Flower Time: spring - fall

Zone: 9 - 11

The first year consider it a fuchsia blooming mini shrub. However, the second year dig up and expose the hidden potato shaped roots for a tiny bonsai tree!

Ice Plant, Tiny Pink

Botanical: *Delosperma* sp. ex. Beaufort West

Size: Groundcover 2" tall x 5" wide

Flower Time: spring - fall

Zone: 9 - 11

Keeping this on the dry side encourages a waterfall of ever blooming pink flowers on the edge of a pot or rock wall.

Jade, Baby Tree

Botanical: *Crassula x portulacea* 'Baby Jade'

Size: Tree 12" tall x 10" wide

Flower Time: spring

Zone: 9 - 11

Grow a true miniature "Jade Tree" which, when grown in full sun, has striking red edges. Leaves get even smaller as this becomes more of a tree with each passing year.

Jade, Mini Kitty

Botanical: *Crassula marginalis* v 'Minuta Variegata'

Size: Groundcover 1" tall x 6" wide

Flower Time: summer

Zone: 9 - 11

Minimal watering brings out the pink edges of the green and white foliage. Great groundcover for edge of pots or strawberry jars. Red buds open to summer white flowers.

Jade, Princess Pine

Botanical: *Crassula* 'Imperialis'

Size: Shrub 4" tall x 5" wide

Flower Time: N/A

Zone: 9 - 11

This wild west, crazy addition, often called "Watch Chain" or "Snake Plant," can be pruned down to any size. Divide or make cuttings to repeat around your mini landscape.

Jade, Shrek's Ears

Botanical: *Crassula ovata* 'Hobbit'

Size: Tree 12" tall x 12" wide

Flower Time: spring

Zone: 9 - 11

No doubt it mimics the green ogre's ears so what kid could resist. Grown as a mini tree or as a bonsai by itself. Cut off ends of branches to keep compact and upright growing.

Pictured tree
is 2 years old

Miniature Tropical Sun Succulents

Jade, Tiger

Botanical: *Crassula exilis* ssp. *picturata*

Size: Shrub 2" tall x 3" wide

Flower Time: summer

Zone: 9 - 11

Its gorgeous compact rosettes are made of dark green leaves with black spots. Leaves turn reddish color in the summer as the white and pink flowers arrive.

Jade, Tiny Bush

Botanical: *Monanthes subcrassicaulis*

Size: Shrub 2" tall x 5" wide

Flower Time: spring

Zone: 8 - 11

These small bushes of dark green, almost black, 1/4", mini, pickle-shaped leaves are a great contrast next to succulents on the top of a strawberry jar. Fit for bonsai too.

Life-Saver Plant

Botanical: *Huernia zebrina magniflora*

Size: Shrub 2" tall x 4" wide

Flower Time: summer - fall

Zone: 9 - 11

Absolutely the most bizarre flower as it looks like a wine-colored, "Gummi Lifesaver" was set in the middle of each yellowish with wine-red lined, star shaped flower. In the shadow of these stars, rise four angled cactus spires and the last "Monopoly" piece- a one inch car.

NEW! Portulacaria, Rainbow Bush

Botanical: *Portulacaria afra* 'Medio-picta'

Size: Shrub/Tree 9" tall x 6" wide

Flower Time: N/A

Zone: 9 - 11

This variety of "Elephant Tree" is much smaller than the parent, with incredible cherry red stems and variegated leaves. Grows into a mini tree or easy, small bonsai. It does not want or need, full all day hot sunshine. Enjoys sunny windows and sparing water in winter.

NEW! Senecio, String of Dolphins

Botanical: *Curia* (Senecio) *peregrinus*

Size: Vine 2" tall x 8" long

Flower Time: summer

Zone: 9 - 11

Yes this THE hot, trending, easy to care for succulent, bearing leaves that look like flying dolphins. Summer time flowers are not much to rave about, so pair it with more fun succulents on the edge of containers or hanging baskets. Very expensive on the internet
