

Caldwell County Modern Annuals & Perennials
As of February 13, 2015

This checklist of the vascular plants of Caldwell County is primarily based on the collections in the herbarium at Plant Resource Center (PRC), University of Texas, Austin. Additional records were added from the USDA files, historic plant lists from Lockhart State Park (LSP), recent LSP surveys, and local private land surveys.

Special codes used: asterisk (*) USDA, pound sign (#) local LSP and private land surveys.

Rare plants listed from Rare Plants of Texas by Poole, et.al. are indicated with an exclamation point (!).

New Biota of North America (BONAP) modern family names have an ampersand (&).

Species marked in bold are listed on the Texas Department of Agriculture Noxious Weeds list, or the USDA list, or introduced.
